

ESC Information

Alice and Erle Nye Family Environmental Science Center

2016-17

Check our photo gallery through Smug Mug, available through the Warrior Weekly!

What will we do?

The first session is a “get to know” the center and orientation for the ESC. Students will be introduced to the content area for the year.

What to wear?

All students are required to wear socks, sturdy shoes with a closed toe, long pant or jeans, a Lakehill T-shirt, and appropriate outerwear. Hats are welcomed when we are outside.

What are the rules?

Students will follow Lakehill rules at this satellite campus. Additionally, students will learn that soft voices, slow movements, and respect for wildlife and plant life will preserve the flow of nature!

Bug Alert!

YES—there are bugs at the ESC! Outdoor activities will begin immediately but trail hiking is delayed until Oct.

Parents are encouraged to spray their children with bug repellent and apply sunscreen at home.

A list of allergies is kept on file at the ESC and each teacher will bring necessary EpiPens and medications for those students needing them. These will be checked out from the main office for the day.

Fishing in the pond at the ESC.

Learning from Nature

Look at the unfamiliar.

Take a different path.

Get a fresh viewpoint.

See the unexpected.

Learn how to *look*.

Smell the earth.

Listen to the voice of nature.

Make artistic observations.

Any questions?
