

GUESS WHO'S COMING TO DINNER? CATERERS

feeding our future one child at a time

Our Mission

At Guess Who's Coming to Dinner Caterers, we truly take pride in our school lunch program. We understand that children can be finicky eaters and how difficult it can be to get them the nutrition they need. With over 30 years of service in the DFW metroplex, we believe strongly in our mission to provide quality, nutritious meals that appeal to kids while teaching important lessons about healthy eating.

Our Methods

- We've modified childhood favorite foods to make these not so healthy dishes healthier by seamlessly combining them with alternative ingredients. Our
- mashed potatoes contain pureed cauliflower and we use 2% milk instead of cream to reduce the fat content, including our mac n' cheese! We do not serve any fried, processed, or canned foods, and we are also a nut-free facility. The practice of using these healthier substitutions is incorporated throughout all of our menus.

What's for lunch?

Daily menu choices include two different hot and cold options, and additional snacks and drinks which can be restricted through the lunch account.

Students will file through the line each day to select their meals. They will use the Student ID listed on their LINQ account to checkout.

Lunch Accounts

- Lunch accounts are managed through LINQ Connect, formerly known as TITAN. Login credentials will remain the same as last year. **New students for the upcoming school year will be imported into LINQ prior to the first day of school.** Please be on the lookout for an email from us with steps to register and set up your LINQ account.

Visit the Lunch Portal

To find out more about lunch service, visit the lunch portal!

The portal will have everything you'll need throughout the year and can be accessed 24/7. As always, please do not hesitate to contact us directly if you have any questions or concerns.

We look forward to serving your school's community!
