Grade Point Average

Lakehill does not weight grades for our official purposes. A weighted GPA is listed on the transcript for post-secondary institution review only, as applicable, and is calculated by awarding one full point to any AP course. The Lakehill grade point average is a cumulative calculation of a student's work completed at Lakehill from ninth grade onward. All courses taken at Lakehill are included on the transcript and in grade point average calculations (including repeated courses) with the exception of athletics and any independent study courses, which appear on the transcript as a Pass grade and are not calculated into the GPA. Courses not taken at Lakehill, including those taken at other secondary and post-secondary institutions, are not included on the transcript or in the grade point average calculation. The grading system is A-F.
